DX News

9N7WE and 9N7CI Nepal –update

We have high electromagnetic noise – stations are heard 15-25 dB worse than normal. It is very hard to make SSB and CW contact.

Sometimes we have no electricity (up to 2 hours).

Sometimes in Kathmandu valley are thunderstorms – we had to turn off stations.

TX5N Austral Islands –QRT

The antennas and radios are packed for return to California. The team is resting in Papeete preparing for their journey home.

All the logs are uploaded to M0URX.com. Busted or missing QSOs will be researched by Tim M0URX. Please use the form on the TX5N OQRS page to report problem QSOs. Unless you are asked, do NOT send files, spreadsheets, images or your log to Tim or to the operators.

We had a good time activating the first major Pacific DX-pedition since early 2020. We are now investigating other DXpedition projects.

Thanks for the pile-ups.

3Y0J Bouvet –by Ken LA7GIA

After a successful system test weekend in Oslo at LN8W contest station, with a lot of hard work, equipment testing but also a lot of fun, some DXpedition jokes and stories, the team now are out for dinner in Oslo. A happy team, a lot of happy faces – and we all look forward to going there and getting you in the log!

All testing went very well! We will post an update later about the testing. Let's make this together – let's go to Bouvet!

VU4W Andaman Isl -update May 4

First 2427 QSOs uploaded to Club Log. Today, Yuris will finish low-band antenna and try to work lower bands later. One K3 transceiver was dropped while in transit and its display is damaged, so now frequency has to be set only from computer using CAT connection. Power outages happen quite frequently, and it takes time to start generators.
